OK. Do we need to a) re-do anything, or b) respond?

Adrian has a point. I would not have people forward emails to you, thereby creating a new, different record. Have them print them and give you the paper copies.

Thanks Dan,

If you remember, part of the reason that CD13 gave me for, in my opinion illegally, refusing to provide emails in any kind of electronic format, was that "forwarding creates a new record." And yet here Ms. Min forwarded an email to you, which you then printed out, redacted, scanned, and emailed to me.

Now, none of what CD13 produces is an exact copy of anything, but this instance is even worse than usual and is also precisely what the CA's office has told you all not to provide. As long as CD13 is going to continue to refuse to export emails directly to PDF, refuse to redact them directly in PDF format despite the fact that the City has this capability, all on the advice of the CA, the least you all can do is not produce copies by forwarding.

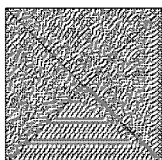

Thus can you please ask Ms. Min to provide what passes for an exact copy around CD13 rather than this "new record" produced by forwarding?

Thanks!

Adrian

Good evening, Dan.

I'd like to see all emails between any CD13 staff and MOF on the one hand and Bryan Kim on the other from April 1, 2016 through March 28, 2019. I need to see all attachments as well. Please be sure that all staff and MOF accounts are searched if they're used to conduct City business, whether or not they are official accounts.

Note that Gmail retains attachments in whatever format they're in and that these are accessible to the end-user of the City's version of Gmail. Furthermore, the City of LA uses these various formats internally.

Thus, even though I think the City Attorney's theory of why the City isn't obligated to provide emails in their native format is completely wrong, it nevertheless does not apply to email attachments, which I will therefore need to inspect or obtain copies of in their native formats.

Also, please note that there's absolutely no reason to redact Bryan Kim's email address and you can save everyone so much time and trouble if you don't do it!

Thanks!

Adrian
